II. USES AND DISCLOSURES OF YOUR MEDICAL INFORMATION

A. Frequent and Routine Uses and Disclosures for Treatment, Payment, Health Care Operations, and Administrative Purposes.

Upon your admission to the Facility on or after April 14, 2003, we will use good faith efforts to obtain from you a written acknowledgment that you have received a copy of this Notice of Privacy Practices. After that, with a very few exceptions described below, applicable Indiana and Federal (HIPAA) laws permit us to use and disclose your medical information for treatment, payment and/or health care operations purposes and other routine uses, as described below.

(i) **No Consent Needed:** We are not required to obtain your consent to use/disclose your resident information for the following purpose(s):

(a) **Treatment** - We may use or disclose medical information about you to provide you with medical treatment or services. This means that we may share medical information about you with doctors, nurses, and other staff here at the Facility who are involved in taking care of you. It also means that we may disclose medical information about you to providers outside our facility who are or may be involved in your medical care. For example, we may disclose medical information to another physician, a hospital, surgical center or other facility to which we may send you for procedures or required care.

(b) **For Payment** - We may use or disclose medical information about you to your insurance company, a governmental payer or other responsible third party for the purpose of receiving payment for the medical treatment you have received. For example, we may tell your health plan about a medical treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment. We may also use your medical information for billing and collections purposes

(c) **For Health Care Operations** - We also may use and disclose medical information about you for our day-to-day health care operations. These uses and disclosures are for the necessary business of the Facility, and to ensure that all residents receive quality care. For example, we may use medical

information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many residents to help determine what additional services we should offer, what services should be discontinued, and whether certain new treatments are effective. For some of these health care operations purposes, we will share your medical information with third party "business associates" that perform various activities (e.g., billing, transcription services) for the Facility. Whenever an arrangement between our Facility and a business associate involves the use or disclosure of your medical information, we will have a written contract that contains terms that will protect the privacy of your protected health information.

(ii) **Exceptions** -- Indiana law gives certain types of medical information more stringent confidentiality protection. Ordinarily, we do not have occasion to access, use or disclose such information. If we do use such information, however, our practices are as follows.

(a) **Communicable Diseases; AIDS/HIV** -- For purposes other than resident treatment and public health and safety, we must obtain your specific authorization before we disclose information about HIV/AIDS status or testing results. Thus, for example, we must obtain specific authorization from you before releasing any such information about you for payment or health care operations purposes, but we do not have to do so for treatment purposes.

(b) **Mental Health Records** -- For information concerning the diagnosis, treatment, or prognosis of a resident receiving mental health services or developmental disability training, disclosure is prohibited except where the information is disclosed: i) to the resident's court-appointed counsel or to the Indiana protection and advocacy services commission, ii) for research conducted in accordance with the rules of the divisions of mental health and addiction, and of disability and rehabilitative services, or the rules of this Facility, iii) as necessary to make reports pertaining to admissions, transfers, discharges, and guardianship proceedings, iv) under certain circumstances, to law enforcement agencies, v) to a coroner or medical examiner, vi) to a school in which the resident is enrolled if the superintendent of the facility determines that the information will assist the school in meeting educational needs of a person with a disability, vii) to satisfy state reporting requirements, viii) to another health care provider in a health care emergency, and ix) pursuant to a court order. Mental health records may also be disclosed to the extent necessary to obtain payment for services rendered or other benefits to which the resident may be entitled and to a health care provider or mental health care provider where necessary to provide health care or mental health services.

(c) **Drug and Alcohol Treatment** -- Records pertaining to the identity, diagnosis, prognosis or treatment of any resident which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States shall be kept confidential, except that such record may be disclosed pursuant to a written release signed by the resident, to medical personnel in a medical emergency, to qualified personnel for the purposes of research, audits or program evaluations, or pursuant to a court order.
